

the art of bike storage™

the leonardo wall mount bike rack with fire tray

Works with any wheel size, large or small

Mounting Instructions: READ CAREFULLY BEFORE USE !

- ⚠ **WARNING:** Improper installation could result in personal injury including damage to your wall and your bike!
Users should be aware of mounted racks to avoid potential accidental injuries.
- ⚠ Mount on a wall capable of supporting 18kg/40lbs.
Avoid mounting rack in a position where personal injury could result from protruding rack not being noticed and accidentally walked into.
- 1) Identify where wooden stud lies within wall
- 2) Determine correct height to mount rack by
 - a) holding bike upright with both tires touching the wall and
 - b) marking the spot where the front tire touches the wall
 - c) measure 12" above that spot to mark the top screw hole of rack
- ⚠ Be sure to avoid drilling into any electrical, plumbing or other service fixtures hidden within wall.
- 3) Drill pilot hole for wood screw (must be in wooden stud)
- 4) Use spirit level to determine vertical line for second screw
- 5) Screw in top hole but not fully home
- 6) Drill pilot hole for second screw along vertical line
- 7) Fully tighten both screws
- 8) Stand back and enjoy aesthetic appeal of Leonardo on your wall
Hang bike in a pleasing manner.

⚠ **IMPORTANT:** Be certain the rack is properly secure before hanging bikes. Do not exceed 18kg/40lbs. total load on rack.
